## NEW COMPRESSOR FILTERS REDUCE MAINTENANCE P/N 955 B004

### DESCRIPTION:

This new assembly providing over 20 square inches of filtering area will significantly reduce replacement intervals and routine dryer visits.

It conveniently installs in place of existing filters and provides service life of 6 to 9 months under normal conditions.

### BENEFITS:

- Eliminates old style filter snaps, rings, caps, etc.
- More efficient dryer energy
- Longer compressor life
- Less frequent compressor and filter service
- Reduced low flow alarms
- Easy change elements
- Operate fewer compressor/dryer systems.

### QUANTITY REQUIRED:

- Two (2) per compressor

### ORDERING INFORMATION:

- Filter assembly P/N 955B004 (Includes fittings to replace old filter)
- Filter, assembly P/N 046B001 (replaces new filter)
- Filter element w/screen P/N 046B002 (D344B)

### DIMENSIONS:

4 ½ "L x 2"d
